# 1. Green Deal participants operating in Scotland

The data presented in table 1 shows the cumulative number of Green Deal participants listed as 'operating in' or 'based in' Scotland. This data was obtained from the Green Deal Orb in early February 2015. The exception are the Green Deal advisor (domestic and non-domestic) figures which come from the Scottish EPC Register and are accurate up to the end of February 2015. The reason for 'n/a' for Green Deal advisors (domestic and non-domestic) in Scotland is due to lack of data.

The graph above shows the change in Green Deal participants operating in Scotland from January to February 2015.

Table 1: No. of Green Deal participants in Scotland (February 2015)

	Green Deal assessors organisation	Green Deal advisors (domestic)	Green Deal advisors (non-domestic)	Green Deal installers	Green Deal providers
Operating in Scotland	59	1,347	5	403	16
Based in Scotland	57	n/a	n/a	296	8

## 2. Occupancy assessments and Green Deal plans

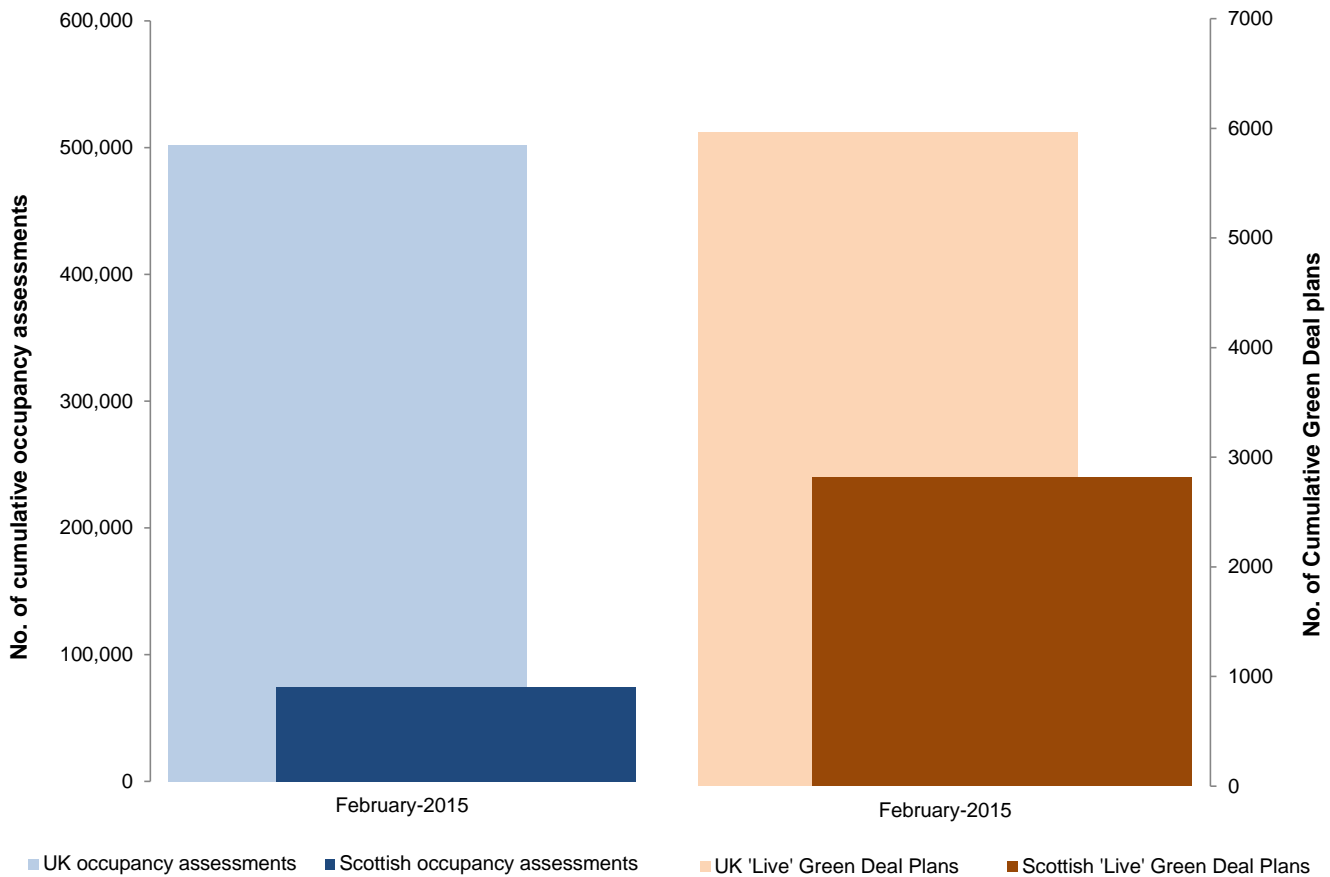

Table 2: Cumulative occupancy assessment and Green Deal plan status - domestic (February 2015)

	Scottish numbers (up to end of February)	UK numbers (up to end of February)	% of UK total
Total occupancy assessments	74,247	501,906	15%
GD plan status 'new'	562	2,943	19%
GD plan status 'pending'	494	1,939	25%
GD plan status 'cancelled'	3,574	<i>Data not available</i>	
GD plan status 'live'	2,817	5,964	47%

Occupancy assessment and Green Deal plan figures come from the Scottish EPC register and are compared with DECC's monthly UK figures<sup>1</sup>. All of these figures are accurate up to end of February 2015.
